# **MEYER Valve Skid**

#### **MEYER Valve Skid**

Not only was MEYER the first company to introduce valve skids on a frac location, but we also build the safest and most reliable unit on the market. Modular valve skids allow multi-well pads to be run from power units outside the redzone, creating safer and hassle-free routine maintenance.

#### **Standard Features**

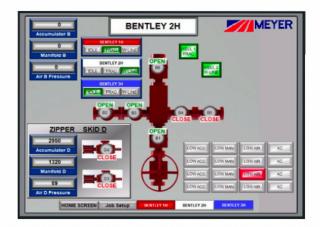

- Heavy duty 8" channel skid with integral forklift pockets eliminating tipping and crash hazards
- Available in multiple configurations from 3 valves to 8 or even more
- Independent regulators and gauges to guarantee each valve skid gets the correct pressure and ease troubleshooting.

## **Optional PLC Automated Unit Available:**

- Multiple units can be controlled from a single control screen
- Remote monitoring available via Web or iPad
- Alarms for low accumulator, low manifold, low air pressure and AC power failure
- Color-coded wellhead information
- Optional data logging
- Cellular and Wi-Fi versions available
