

MEYER HYDROSTATIC FLUSHING UNIT

Meyer Hydrostatic Flushing Unit

Meyer Hydrostatic Flushing Units combine pressure, hot water, and chemical solvent to remove packed sand and debris from valves. This reduces wear and prolongs component life.

Standard Features

- Kohler diesel motor
- Cat 4,500 psi Triplex pump
- Single 225-gallon poly water tank
- 30-gallon chemical tank
- 100-foot x ½" 6,000 psi flushing hose
- 100-foot spring retract hose reel for flushing hose
- Pistol-style hand valve with integral unloader
- Diesel burner to heat water

Options

- Trailer mounting
- Certified lift sling
